*The Global Leader
in Customer Service*

Dear Executive:

Have you found that your customers are more demanding than ever?

And yet, service worldwide seems to be getting worse. Companies spend most of their dollars to attract new customers—and virtually nothing to keep them. When you partner with Service Quality Institute, our programs will help you keep customers!

High-value, maximum-impact customer retention demands that you help employees understand the value of keeping the customer and how they can contribute to the process. Next you must give them the skills to succeed.

Our expertise can help: For over the last 40 years, Service Quality Institute has been the global leader in helping organizations keep customers and building market share. Our clients also learn how to improve the performance of their entire workforce so they can develop a culture of delivering superior customer service.

We are an international business with over 30 products in 11 languages, and many online. Our channel partners are in over 40 countries.

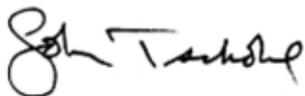

Our focus and core competence is changing attitudes and behaviors in order to build a service culture with our “all-you-can-eat 3 year service culture buffet.”

This requires commitment, time and some money. Building world-class service and a service culture demands that you keep employees motivated and trained continually. One-shot progress produces one-shot results. This means you need to introduce a new training program every four to six months to avoid the downturns. Our experience shows that it should be new, and different, and it must reinforce the message learned in the previous program to be effective and hold their interest.

We can measurably increase performance in 16 areas of your organization (see page 4), through an ongoing 11-step series of programs for just a few dollars per year, per employee, with our three-year service culture plan.

Invest in your company’s one asset where you can get the greatest return on the dollar: Your employees.

Sincerely,

John Tschohl
President

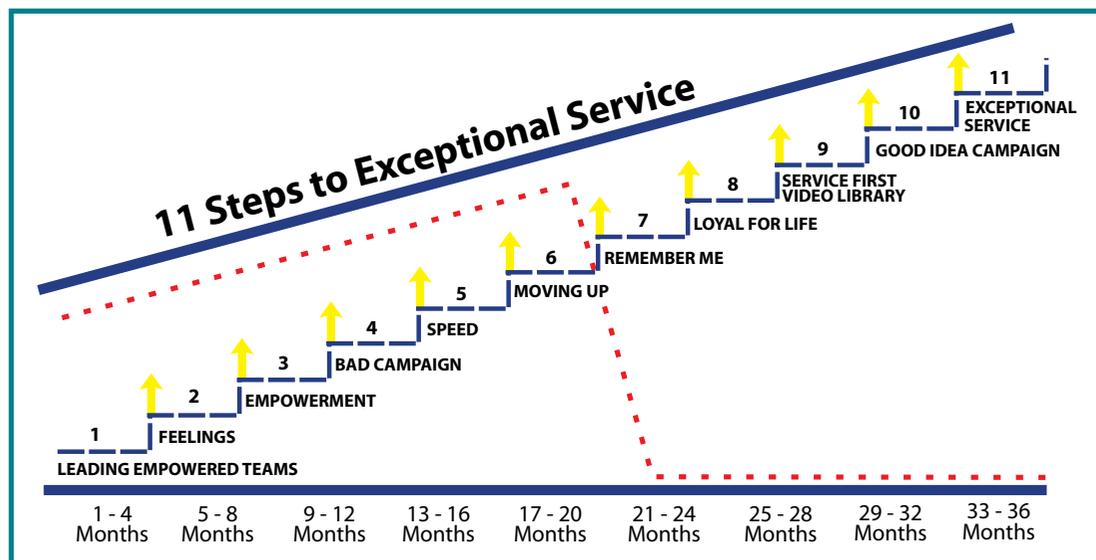

PS: Take action now to retain customers. Our NO Ifs, NO Ands and NO Buts money-back guarantee says, “It works!”

Creating A Service Culture

Strategic Plan for Corporate Culture Change

This is a recommended three year service culture plan. Phase sequence will be tailored to your environment. Every 4-6 months the next phase should be kicked off. We recommend 12 months between BAD and GOOD Idea Campaigns for maximum impact.

If money is a concern, start with the BAD cost reduction campaign and use some of the savings to fund the entire three year plan. It's low risk and inexpensive.

Customer Service

Measuring Results to Ensure Return on Investment (ROI)

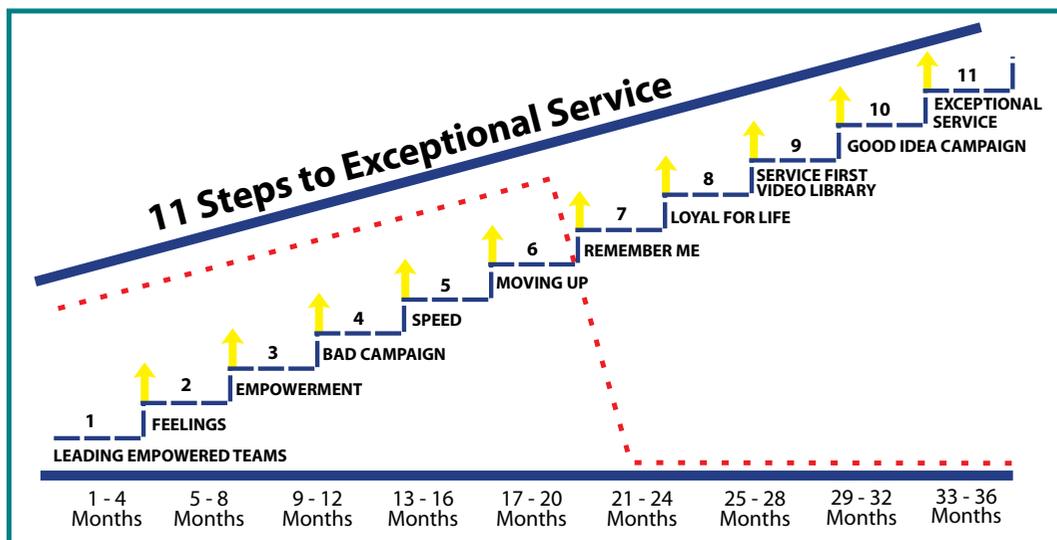

Measurement/Benchmarking

To measure the impact of Service Quality Institute's learning systems, we suggest you track the following on a monthly, quarterly and annual basis.

1. Sales	8. Repeat Business	12. Absenteeism
2. Market Share	9. Employee Turnover	13. Workers Compensation Claims
3. Profit	a. Actual number	14. Grievances
4. Defection Rate	b. Actual cost to replace employees	15. Claims
5. Customer Count	10. Shrinkage/Theft	16. Customer Service Performance Standards
6. Customer Complaints	11. Tardiness	
7. Customer Satisfaction		

Effective measurements require that:

1. All employees go through the training.
2. Service Quality Institute's learning systems are used for all new employees and graduates who failed to internalize the message the first time.
3. A new SQI program should be introduced every 4-6 months.
4. The return on investment is measured by the total dollars invested into our technology.
5. Service Quality Institute can design and help evaluate the measurements. Before and after measurements with hard data for each step/phase are encouraged.

“We just finished a course using Service First Video Library—truly a success. I have received many compliments from the students about the class contents. They stated, ‘This is a course that everyone should take. It is so refreshing to learn practical information that I not only can take back to my job, but can use in my home also, and if we look at the five principles of Service First, they are really the principles or ideas from the Bible.’ So you can see the video helped the students to see the importance of doing things in a positive manner.”
